# Introduction and the Importance of Data

## Introduction

This school profile pack has been produced to help headteachers, staff and governors review outcomes at the end of the Early Years Foundation Stage.

On the next page there are a set of questions to use when considering the reports. They provide an analysis of your school's profile relative to national data. They also provide comparisons with the LA itself and schools in your District.

National averages are all based on 2014 DfE published data, except % GLD, which is provisional 2015 data from NCER.

## The Significance of Data

The purpose of any reports like these that provide information about pupil outcomes is not to provide definitive answers but to raise questions, and focus discussion. In some instances, e.g. where pupil numbers are small, the data may not be particularly reliable and should be treated with caution.

## New Sponsored Academies

No trend data is available for new sponsored academies due to the change in status of the schools concerned.

# Key Questions To Be Asked

## School Early Years Foundation Stage Profile Narratives

### 1. Early Years Foundation Stage Attainment for Current Year

This report gives you the distribution of scores for each of the seventeen Early Learning Goals (ELGs) in your school compared with that of all pupils in your district, the LA and National. It gives the percentages of pupils that are assessed as Emerging, working at the Expected level or Exceeding the expected level. It also shows the combined percentage of pupils for the latter two categories, as Expected+ (Expected or above).

#### Key Questions

- \* How does the profile of pupils in our school compare with that of pupils within our district, the LA and Nationally?
- \* Are there any assessment areas where the distribution of scores is very different from one another? Why is that?

### 2. Early Years Foundation Stage - Comparison with Previous Years

This report shows the proportion of pupils attaining a Good Level of Development (GLD), Expected+ in Prime, Specific and All Learning Goals and Expected+ in each of the 17 early learning goals for the current and previous 2 years.

#### Key Questions

- \* Does the achievement of our pupils rise, fall or remain the same this year compared to previous years? Why is that? Is this pattern repeated across all assessment areas?
- \* How does the school's annual change compare with the annual change of the LA, district and Nationally?

### 3. Early Years Foundation Stage - Gender Differences

This report compares the performance of boys and girls for your school and the LA attaining Expected+ in the 17 assessment areas. It shows where boys are attaining higher than girls or vice versa.

#### Key Questions

- \* In which assessment areas do the boys attain higher than the girls, and in which subjects do the girls attain higher than the boys?
- \* What are the reasons for this? Are they significant?

### 4. Early Years Foundation Stage - Term of Birth

This report shows the performance of pupils according to term of birth for your school.

#### Key Questions

- \* Are there any significant differences in the performance of pupils born in Autumn, Spring and Summer? Is this what you expect?

# Key Questions To Be Asked

## 5a-h Early Years Foundation Stage District Schools Comparison

This series of reports compares your school's performance, in each assessment area, for pupils that are working at Expected+ in each of the ELGs, to that of the schools within your district.

### Key Questions

- \* How does our school's performance compare with that of other schools within our district?
- \* Are there any assessment areas in which our school does particularly well/less well? Why is that?

## 7. Early Years Foundation Stage - Vulnerable Groups

This report looks at the performance of vulnerable groups, including gender, FSM eligibility, SEN status, EAL, Ethnicity and Looked After Children in the attainment of a Good Level of Development and Expected+ in Prime, Specific and All Learning Goals.

### Key Questions

- \* Are there any particular groups where % obtaining GLD or Expected+ is significantly below what you would expect?
- \* In which aspects are there significant differences in attainment within / between the groups?
- \* What are the reasons for this? Are they significant?

## 8. School Static and Contextual Data

This report gives you the background data about your school. Data are given for the whole school and for the EYFS cohort (Year R).
